The plaintiff is now a child 5 years of age, and it is alleged that on January 7,1892, when he was an infant in his mother's arms, he was being carried up Main street when, owing to the had condition of the sidewalks, Mrs. Scoville fell and the child received severe injuries causing abdominal rupture to his damage in the sum claimed.

The complaint alleges that the marriage took place at Shakopee, Minn., on June 26, 1872, and that the defendant, although amply able, falled to provide her and her family with the common necessaries of life. Wherefore plaintiff prays for a decree of divorce, temporary and permanent allmony and the custody of their four minor children.

The colonel was enthusiastic over the project, and his statements were verified yesierday in a letter received by a well known business man of this city from a prominent Californian, stating that the San Josauin Valley line was a "sure go" and that it meant a competing line from Salt Lake to the coast. The San Francisco Chronicle says of the project:

Starting from China basin, the line will skirst the bay to Santa Chara county. San Jose will be entered by the best approach, the details of that matter being dependent to some extent on the rights of way and othe facilities offered by the Garden City. The line will not run to Gilroy, but will enter the hills by way of Hillsdale and then climb the mountain to Facheco Pass. The elevation of the tunnel in the pass will be 18 fect. Crossing Merced cosmy, the San Joaquin vulley will be reached at Batenda above Madera. From that point the line takes in Merced and Stockton to the north. Barstow will be the next point, and from that place connection will be made with Los Angeles. Following the survey of the Salt Lake, Los Angeles & Pacific railroad, the route then runs to Resting Springs. Nevada being crossed, the line will enter Iron county, Utah, and, according to one plan, reach eastern connection at Denver.
